

ARROZY ADI FALAQI

UI/UX Designer | Product Designer | Computer Science Graduate

Bandung, West Java, Indonesia | +62 812-9802-3537 | arrozyadifalaqioi@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

UI/UX Designer with a Computer Science background from Universitas Pendidikan Indonesia (GPA 3.73) and hands-on experience designing responsive web and mobile products for government, education, and private-sector clients. Skilled in user research, information architecture, wireframing, prototyping, usability testing, and design-to-development collaboration. Known for translating complex requirements into clean, accessible, and user-centered digital experiences using Figma, Adobe Creative Suite, HTML, CSS, and JavaScript.

CORE COMPETENCIES

- User Research
- UX Strategy
- Information Architecture
- Wireframing & Prototyping
- UI Design Systems
- Responsive Web Design
- Dashboard Design
- Mobile App Design
- Usability Testing
- Design Thinking
- Stakeholder Collaboration
- Front-End Handoff

PROFESSIONAL EXPERIENCE

UI/UX Designer | PT Mitra Sinerji Teknoindo

Bandung, Indonesia | August 2023 - Present

- Designed user interfaces for high-impact digital products across government, education, and public service sectors, including Kominfo, Kemendikbud, PUPR, and Universitas Terbuka projects.
- Redesigned next-generation e-certification and administrative platforms with a focus on accessibility, clearer navigation, and improved user efficiency.
- Created end-to-end UI flows, wireframes, high-fidelity prototypes, dashboards, and responsive layouts for web and mobile products.
- Conducted user-centered analysis to simplify complex workflows, improve data visibility, and support better decision-making for stakeholders.
- Collaborated closely with front-end developers to ensure accurate implementation, responsive behavior, and consistent design quality across screens.
- Presented design concepts and rationale to technical and non-technical stakeholders, aligning user needs, business goals, and development constraints.

UI/UX Design Trainee | Binar Academy

Remote | February 2022 - July 2022

- Completed an intensive UI/UX design program covering design thinking, user research, ideation, wireframing, prototyping, and final project presentation.
- Designed mobile and website prototypes for an e-commerce final project based on user needs, research insights, and usability considerations.
- Conducted surveys and interviews to identify user pain points and translate findings into practical design improvements.
- Presented the final project to mentors and received positive feedback on functionality, visual direction, and user experience.

Web Developer | CV Mitra Yudha Xavier

Bandung, Indonesia | September 2022 - November 2022

- Developed and improved website features using HTML, CSS, and JavaScript with attention to performance, usability, and responsive layout.
- Supported website maintenance, database reliability, and user-facing improvements to deliver a smoother browsing experience.
- Worked with visual design and implementation details, strengthening the ability to bridge UI concepts with front-end execution.

Graphic Designer | PT Intelligo

Bandung, Indonesia | January 2023 - March 2023

- Created digital marketing visuals, social media assets, and promotional materials with clear hierarchy, consistent branding, and audience-focused messaging.
- Coordinated with clients to understand creative needs, revise deliverables, and produce visual assets on time.

EDUCATION

Universitas Pendidikan Indonesia | Bachelor of Computer Science

2019 - 2024 | GPA: 3.73/4.00

Thesis: Website Design and Development for Orion Guest House Using the Double Diamond Method and Content Marketing

TECHNICAL SKILLS

Design & Prototyping: Figma, Adobe Photoshop, Adobe Illustrator, Adobe Creative Suite, Sketch, InVision

UX Methods: User research, usability testing, surveys, interviews, user flows, journey mapping, wireframing, prototyping

Front-End Knowledge: HTML, CSS, JavaScript, responsive design principles, developer handoff

Product & Collaboration: Design systems, dashboard design, documentation, stakeholder communication, agile collaboration

SELECTED PROJECT HIGHLIGHTS

- Kominfo - Next-Generation E-Certification Website: redesigned user-facing and administrative flows to support clearer certification processes and improved accessibility.
- Universitas Terbuka - MBKM UT Website & TTM Attendance App: designed education-related digital products focused on usability, data clarity, and mobile-friendly workflows.
- Government Analytics Dashboard: created data visualization interfaces to help stakeholders monitor information and make decisions more efficiently.
- Public Service Mobile Prototype: developed a prototype for a public service platform with a focus on simple navigation and user satisfaction.

PROFESSIONAL STRENGTHS

- Strong communication skills with the ability to explain design decisions clearly to clients, developers, and cross-functional teams.
- Detail-oriented approach to layout, hierarchy, consistency, and usability across digital products.
- Fast learner who can adapt to changing requirements, tight timelines, and complex stakeholder environments.
- Balanced design and technical perspective through combined experience in UI/UX, graphic design, and front-end development.
